

The U.S. Fire Administration's National Fire Academy is seeking students to help pilot test the two new 6-day courses in the Fire Inspection Principles series. Fire Inspection Principles I will be held January 24 – 29, 2016 and Fire Inspection Principles II will be held the following week, January 31 – February 5, 2016. Please note that you are required to attend BOTH weeks of training.

**Fire Inspection Principles I (P0390):** This 6-day course introduces the student to the fundamental methodology for application of fire and life safety codes and standards.

**Fire Inspection Principles II (P0391)** This 6- day course introduces the student to the fundamental methodology for application of the requirements for fire protection systems, including detection, notification, fire control and extinguishment, and mitigation of fire-related hazards, with special emphasis on fire alarm and fire suppression systems.

Although these courses contain many of the basic principles of code enforcement, more experienced code inspectors and officials may find it useful as a review of essential methodologies and as a useful update to current code enforcement applications. It is not the intent of this course to present specific code requirements, however the focus is more on the methodology of the use of these requirements.

Fire Inspection Principles I (P0390) Course Dates: January 24 – 29, 2016

Fire Inspection Principles II (P0391) Course Dates: January 31 – February 5, 2016

**Student Selection Criteria:**

- Individuals with at least one year's experience whose primary duties are those of a full-time code enforcement inspector/officer.
- Individuals who have the responsibility to train personnel involved in full-time code enforcement activities.
- Suppression COs responsible for in-service fire code enforcement activities.

**NOTE:** Special consideration will be given to individuals and departments starting new fire prevention bureaus or preparing an individual as an instructor for a code enforcement training program within their department.

**Prerequisites:** ICS-100-level and ICS-200-level training. Preferred courses are Q0462 and Q0463, available through NFA Online at [www.usfa.fema.gov/training/nfa/courses/online.html](http://www.usfa.fema.gov/training/nfa/courses/online.html). Chief's signature attests that the applicant has completed this required training.

**Here's How to Apply:**

Students interested in attending these two pilots must submit the FEMA Form 119-25-1, General Admissions Application available for downloading at:  
<http://www.usfa.fema.gov/training/nfa/admissions/apply.html>

Because you are required to attend both of these pilot offerings, please submit TWO applications, one for each course.

Submit your completed applications to the NETC Admissions Office not later than **December 1, 2015** via mail, fax, or email:

NETC Admissions Office  
16825 South Seton Avenue  
Emmitsburg, MD 21727  
Fax: 301-447-1441  
Email: [netcadmissions@fema.dhs.gov](mailto:netcadmissions@fema.dhs.gov)

Do not make plans to attend this course until you have received your acceptance notification from the NETC Admissions Office.

**Stipend reimbursement** is available for qualified students through the Student Stipend Reimbursement Program following your successful completion of the courses.
